### RECURVE

BOOK #1 \$29.95 TRADE P/BACK

My name is Larkspur, and I am an Elemental. My people use the power of the earth to sustain life and defy our enemies. I should be at my father's side as a royal princess. But as a half-breed, bastard child, that isn't going to happen. I've been accused of attacking the queen, my wicked stepmother, and my life is suddenly on the line. I have only two options left to me: banishment, or training to become one of the King's Elite Guards, an Ender. Option one will kill me. Option two is meant to break me, but is the only way to survive. Did I mention I have no power like the rest of the elementals, and my connection to the earth is worth next to nothing? Could things get any worse? Of course they can. Welcome to being an Elemental.

### BREAKWATER

My name is Larkspur, and I am an Elemental. As an Ender, one of my father's Elite guards, it's my job to do as I'm told. When my older sister is sent as an ambassador to the realm of the water elementals--the Deep--I have no choice but to accompany her as her bodyguard. With the death of the water elemental's King, a deadly battle for the throne begins; a battle we are forced to choose sides in. There are only a few things I know for sure. The ocean may be beautiful, but lurking in its depths are monsters to fear, the water I tread is teaming with danger and I am on my own. With no one to help, and no one to trust, I have to find a way to keep my sister safe, and stop a civil war. But the secrets within the Deep are far darker than any of us realized. Welcome, welcome to the Deep.

Terrified, she flees into the night--and right into the arms of Dallas Wicker. Dallas is trying to uncover the truth about a colleague who died under suspicious circumstances. As strange happenings continue to plague Kristi's home, it is soon clear that there's a very living threat in the neighborhood--several people have disappeared without a trace. Now, she focuses on work, which is why she's acting as Raff's bodyguard while secretly hunting for Slay. The search leads Mags to team up with a Noxblade so belligerent that she can't resist baiting him. For time immemorial, the Old Races adhered to these laws, except, of course, when they did not. Tales of hidden yeti, mad harpies, and selkies who dared to risk all reveal the path that led to the Negotiator Trilogy and most of all, of Sarah Hopkins, a beauty born to London's slaughterfields centuries ago, whose love for the dragonlord Janx and master vampire Daisani ravaged a city. Through it all, pirate, queen, and vigilante Grace O'Malley is drawn back into the world she was banished from centuries ago: the world of the living. Cursed by a witch, the deepest of all human magics, she searches for the impossible, the one thing that even the Old Races agree doesn't exist: The kiss of angels.
