an ounce of honor. But as they become better acquainted, William starts to realize he must make Eloise his. The only question is how. Eloise loves her new position. But William Townsbridge's arrival threatens everything, from her principles to her very heart. Falling for her employer's son would be monumentally stupid. All it can lead to is ruin, not only for the present, but for her entire future. So then the simplest solution would be to walk away. But can she?

Or so she believed, until their paths cross again and Phaedra finds herself, and her Atlantean people, at the center of Micah's wrath. With tensions between the Breed and the Atlanteans already edging toward war, and a powerful nemesis growing bolder by the day, uncovering the truth about what happened in the Deadlands will force Micah and Phaedra to work together in an alliance forged by fate.

INSIDE OUT

BOOK #1

Keep Your Head Down.

Don't Get Noticed. Or

Else. I'm Trella. I'm a scrub. A nobody.

One of thousands who work the lower levels, keeping Inside clean for the Uppers. I've got one friend, do my job and try to avoid the Pop Cops. So what if I occasionally use the pipes to sneak around the Upper levels? The only neck at risk is my own...until I accidentally start a rebellion and become the go-to girl to lead a

revolution.

OUTSIDE IN

BOOK #2

Me? A leader? Okay, I *did* prove that there's more to Inside than we knew.

That a whole world exists beyond this cube we live in.

And finding that led to a major rebellion--between worker scrubs like me and the snobby uppers who rule our world. Make that *ruled*. Because of me, we're free. I thought that meant I was off the hook, and could go off on my own again--while still touching base with Riley, of course. He's the one upper I think I can trust. But then we learned that there's outside and then there is *Outside*. And something from Outside wants In.

Start with The Monster Mash. Even during a truce, I have my hands full as a MASH surgeon to an army of warring gods—especially when Medusa herself turns up pregnant. I frankly have no idea what to expect when a Gorgon's expecting, but I have an even bigger problem when my presumed-dead former-fiance sneaks into my tent with enough emotional baggage to fill a tank. He's been fighting for the other side, which technically makes him my enemy, and now he needs me and the power I've kept secret for so long: I can see the dead. It's a blessing and a curse. Because the gods will smite me in a second if they suspect. But the other side is developing a terrible new weapon, and the only person who can stop the carnage was just murdered in a covert lab behind enemy lines. So I have no choice but to pull on my combat boots and go AWOL with my ex and a moody berserker to confront a ghost with a terrible secret. Too bad uncovering the truth could make me enemy #1

THE SOLSTICE COUNTDOWN – LISA SHEARIN BOOK #7 \$35.00 TRADE P/BACK

Start with The Grendel Affair. As an agent of Supernatural Protection & Investigations (SPI), I know that evil doesn't take a vacation, but this time it made an exception and followed me on mine. I'm Makenna Fraser, seer for SPI, and I'm taking my boyfriend, goblin dark mage Rake Danescu, home for the holidays to meet my family. Weird Sisters is a small town in the North Carolina mountains that was built on a network of ley lines that magnify psychic and paranormal energies. It doesn't show up on Google Maps, was named after the three witches in Macbeth, and the first word of the town name perfectly describes most of its human and supernatural citizens. A stranger has come to town, bringing with him a dormant source of primordial evil. Soon, magically gifted locals start vanishing, and the power of the ley lines is turned against us, cutting us off from the outside world and any source of help. For a town and its people steeped in magic, and my family sworn to protect both, it's a race against time to use a local winter solstice phenomenon to free the town from its prison. But first, I must trust a father I've never known to fight and defeat an awakening evil that's existed since the beginning of time. If we fail, and it is unleashed, the world will not survive.

Penelope Kim safe in the aftermath. She'd risked her life to save him once, and she's all that matters. For months, he's kept his distance, protecting her from afar, because he knows that one touch—one sigh—one kiss—from her will never be enough. Passion is a Dangerous and Deadly Temptation. Penny Kim is one of the few doctors still living, and she alone holds the key to ensuring the human race continues. Several of her friends are pregnant, and the clock is ticking down on their survival. Her days are filled with experiments and hope, while her nights are consumed with visions and dreams of the hard-bodied and powerful soldier who's made her safety his one and only mission. She should be wary of him; she should be terrified of him. Yet all she feels is an unreal craving for his touch that gets stronger every day. Life is short, and she's unwilling to wait, unaware of the danger already hunting them both. Some risks are worth it, even in this new and dangerous world.
