If only he could get the townsfolk of Wildwood to leave him the hell alone. Ani Bennet returned to her hometown for some much-needed serenity. The last thing she needs is a grumpy, too hot for his own good, rich and famous rock star living next door—and rent-free in her brain. She set her fangirl tendencies aside and deleted his photo from her cell when they became neighbors. But when Garrett asks for help, she can't say no. The problem is, spending time together is making those fangirl feelings resurface—and bringing them to a whole new level. What chance does a small-town girl have with world-famous rock star? It's time for Ani to set her fears aside and find out.

**GO TELL THE BEES THAT I'M GONE – DIANA GABALDON**

**BOOK #9 \$27.99 \*PRICE REDUCTION\***  
Start with Outlander. Jamie Fraser and Claire Randall were torn apart by the Jacobite Rising in 1746, and it took them twenty years to find each other again. Now the American Revolution threatens to do the same. It is 1779 and Claire and Jamie are at last reunited with their daughter, Brianna, her husband, Roger, and their children on Fraser's Ridge. Having the family together is a dream the Frasers had thought impossible. Yet even in the North Carolina backcountry, the effects of war are being felt. Tensions in the Colonies are great and local feelings run hot enough to boil Hell's teakettle. Jamie knows loyalties among his tenants are split and it won't be long until the war is on his doorstep. Brianna and Roger have their own worry: that the dangers that provoked their escape from the twentieth century might catch up to them. Sometimes they question whether risking the perils of the 1700s—among them disease, starvation, and an impending war—was indeed the safer choice for their family. Not so far away, young William Ransom is still coming to terms with the discovery of his true father's identity and Lord John Grey has reconciliations to make, and dangers to meet. Meanwhile, the Revolutionary War creeps ever closer to Fraser's Ridge. And with the family finally together, Jamie and Claire have more at stake than ever before.

### THE LADY TEMPTS AN HEIR – HARPER ST GEORGE \$24.95

Tall, dark, and brooding—to say that American Maxwell Crenshaw stood out in the glittering ballrooms of London is an understatement. He vowed never to set foot in England again, but when a summons from his father along with an ultimatum to secure his legacy has him crossing the Atlantic for the last time, reuniting him with the delectable Lady Helena March, he can't deny the temptation she presents. Or the ideas she inspires. Lady Helena March is flirting with scandal. Instead of spending her time at teas and balls in search of another husband, as is expected of a young widow, Helena pours her energy into The London Home for Young Women. But Society gives no quarter to unmarried radicals who associate with illegitimate children and fallen women, and Helena's funding is almost run out. So when the sinfully seductive Crenshaw heir suggests a fake engagement to save them both—him from an unwanted marriage and her from scorn and financial ruin—Helena finds herself too fascinated to refuse the sexy American. As their arrangement of convenience melts oh so deliciously into nights of passion, their deception starts to become real. But if Max knew the true reason Helena can never remarry, he wouldn't look at her with such heat in his eyes. Or might the Crenshaw heir be willing to do whatever it takes to win the one woman he's never been able to forget.

But someone else has gotten a head start, and their reasons for tracking down the miserable old witch are far worse than the council's reasons. Kordas has lived his life looking over his shoulder. The signs in the Empire are increasingly dire. Under the direction of the Emperor, mages have begun to harness the power of dark magics, including blood magic, the powers of the Abyssal Planes, and the binding and milking of Elemental creatures. But then one of the Duchy's mages has a breakthrough. There is a way to place a Gate at a distance so far from the Empire that it is unlikely the Emperor can find or follow them as they evacuate everyone that is willing to leave. But time is running out, and Kordas has been summoned to the Emperor's Court. Can his reputation as a country bumpkin and his acting skills buy him and his people the time they need to flee? Or will the Emperor lose patience, invade to strip Valdemar of everything of worth, and send its conscripted people into the front lines of the Imperial wars?

But this is no ordinary theft. Darker forces are at work, and they're not only seeking the means to resurrect a god of destruction but the power to forever banish daylight. That power lay with Agrona's Claws—three godly artifacts that, when used together, give the user full control over night itself. With the webs of suspicion drawing ever tighter around them, Beth & Lugh—with the help of two sexy elves and a cantankerous old goddess who knows far more than she admits—race to find the missing artifacts before those intent on unleashing chaos. It's a race they must win, because it's not just their lives on the line, but the fate of modern-day England.

 Book #1 Oath Sworn. I got away with it. Carey and her family are safe and I survived to tell the tale. Now I'm the only werecat in the supernatural community that can say a small family of werewolves lives in my borders. But, in the effort of saving Carey and helping her father, I had to begin shedding the secrets that kept me safe for years. My identity is out there now. As one of Hasan's children, more is expected of me and I had no idea what sort of repercussions would come from my decisions. Werocats are reporting problems all over the world and when two go missing, I can't avoid the feeling of guilt. My name is Jacky Leon and I am a child of Hasan, ruler of the werocats. I have to learn how to live up to the obligations and expectations of my family before more people die. My honor demands it.

**BROKEN LOYALTY**  
**BOOK #3 \$40.00 TRADE P/BACK**

They are the definition of power and no one has dared challenge that for millennia. It's not a legacy I'm always comfortable with, but it's the one I was given the day Hasan decided to change me into a werecat. I'm resolved to do my best with my new responsibilities. Others have been watching me and my family. Rogue werocats are now testing my territory borders and putting those I care about at risk. As the events grow stranger, I can feel the tension mount. I have this nagging feeling that my family is about to learn a valuable lesson and it's coming for me first. My name is Jacky Leon and my family's enemies have a message for us.

**HER FIERCE CREATURES – MARIA LEWIS**  
**BOOK #7 \$32.99 TRADE P/BACK**  
 Start with Whos Afraid. Four women. One world changed forever. *It has all come down to this.* Werewolf Tommi Grayson always

knew she was a weapon, she just needed the right target. Never in a million years did she expect that target to be the current leaders of the supernatural world. Sprite Dreckly Jones has spent the entirety of her 140-years hiding in one form or another. Until now. Having seen enough wars, she should be fleeing from the action. Yet some battles are unavoidable. Some are destined. Corvossier 'Casper' von Klitzing knew this day was coming. Or rather, the ghost of her dead brother Creeper kept telling her so. Repeatedly. The supernatural world is in outright revolt against their government, the Treize, and Casper's gift to rally the living and the dead is more vital than ever. Banshee Sadie Burke's bravery was the catalyst for this chaos - and for the unique chance the supernatural world now has to change the balance of power forever. Witches and werewolves working together. Sprites teaming up with shifters. Demons and goblins in cahoots. The human world on the precipice of learning they're not alone. Yet Sadie's power came at a cost, three of them in fact, with the future hinging on the birth of her unborn triplets. The four women and their collective of monsters, misanthropes and misfits have no choice but to risk everything to save everything, with their personal prejudices paling in comparison to a possibility ... the possibility of a better world for themselves and every being that comes after.

**FAR FROM OVER – KATE L MARY**  
BOOK #4 \$35.00 TRADE P/BACK

Start with Far From Home. After barely escaping Heath with their lives, Rowan, Kiaya, and Devon are thrilled to have a safe place to live as winter sets in. With plenty of supplies, a group that works together well, and the security of their new home, things are looking up. Even better? The freezing temperatures might have taken care of the zombies once and for all. Too bad

everyone knows that things with Hank are far from over. Weeks have passed since their altercation with the psycho teen and there's been no sign of him. It should make Devon feel better. Should help him relax. But with trouble brewing in their group, he can't help wondering if the kid who tried to kill them all isn't behind it. Rowan wants nothing more than to settle into this new life in the least complicated way possible. Not an easy task with the father who abandoned her living so close and the threat of a killer hanging over her. And those aren't even her biggest concerns. As the lives of the people in their group become increasingly intertwined, it becomes clear that love, life, and drama are things even a zombie apocalypse can't erase. With new relationships forming, old ones causing problems, and surprise additions to the group complicating matters even more, there's plenty to distract the survivors as they wait to see what will happen when the snow melts and zombies are no longer frozen. And if Hank will finally come knocking.

**AT THE END OF THE JOURNEY – RINGO/ GANNON**  
BOOK #10 \$24.95 \*REPACK\*

Start with Under A Graveyard Sky. It was supposed to be fun. Six teenagers and their British captain aboard the ketch *Crosscurrent Voyager*, headed on a senior year summer cruise to excitement and adventure. Then the world as they knew it ended. A plague spread throughout the globe, killing millions and turning the

survivors into cannibalistic rage monsters--zombies, in so many words. Only by putting aside their differences were the young crew able to survive. Now, they seek others like them, those fortunate souls who have made it through the zombie apocalypse. After all, maybe it's not the end of the world so long as GPS can help survivors navigate deadly terrain, to link up, and maybe--just maybe--ensure the continuation of the human race. But the Earth's GPS systems are failing. It falls to those aboard the *Crosscurrent Voyager* to keep the unthinkable from happening. In order to do so, they must traverse dangerous seas to a European Space Agency complex in French Guiana. And thousands of infected stand in the way. If they succeed, humankind has a chance of rebuilding. If they fail, humanity may well be at the end of its journey.
